“Meeting one on one with the RevUp coaching team about specific issues has been of particular value in helping us get unstuck in certain areas. They pushed us to work on our company rather than just in our company.”
– North Mountain Construction, Nelson

“We enjoyed the higher-level business management mentoring from the RevUp coaches. The program taught us how to analyze the numbers and data and apply strategic business thinking to all aspects of the business.”
– Top Hand Supplies, Cranbrook

“This program has undoubtedly changed our organization for the better. The business knowledge we have gained is invaluable, and I feel far more confident as a business owner and leader of a team having worked with such a talented coaching team. We are also extremely grateful for the RevUP program continuing to run and offer support despite the chaos caused by the pandemic.”
– Nelson Brewing Company

“Basin RevUp is not a “cookie-cutter” or “off-the-shelf” type program. Participating in this program taught us how to dial in our specific needs in the growth stage of our company. Everything we tackled in the Scope of Work was laser-focused on our pain points. We are tremendously grateful.” — Popov Leather, Nelson
About Participants

- 20 companies have engaged
- Average engagement: 6 to 9 months
- Average company size: 13 employees
- Average company revenues: $2.1M
- 95% likely to recommend

“The support and high level of knowledge we received, not to mention the accessibility to the coaches was exceptional.”
- Shade Sails Canada, Revelstoke

“This program is unique in the business world where you get condensed training in understanding numbers and financials key to running a business as well as training your mind for bigger picture thinking. I have looked for something like this and as far as I can tell it does not exist elsewhere.”
- Tratech Mechanical, Creston

“This program is so far doing everything we expected. Specifically, creating a roadmap for expansion and growth, while becoming a more efficient and more profitable business.”
- Cover Architecture, Nelson

“For me, it was the personal connection and the reality that the coaches truly cared about us on every level. They pushed when they needed to, listened when it was appropriate and maintained a well-balanced program that allowed us to achieve structure, proper budgets and process implementation.”
- Honeyman Morris Inc., Kimberley

“I now have a new focus leading a team and I’m working on the business, rather than working in the business.”
- Om Organics, Invermere
