There were no resolutions arising.

Backcountry Road Rehabilitation for Ecological Restoration
The Board was provided a memorandum which sought direction around Trust support for road rehabilitation for the purpose of ecological restoration in backcountry areas. The Board discussed the complexity of where responsibility lies for the rehabilitation of deactivated roads mindful of the Trust’s mandate to not displace or duplicate government responsibilities. The Board endorsed that the Trust maintain its current approach of not considering any road rehabilitation projects for grant funding.

26/20 Moved, Seconded and Resolved that:
The Board of Directors hereby approves that the Trust maintain its current approach of not considering any road rehabilitation projects for grant funding.

Springer Creek Mill Site Acquisition
The Board was provided a memorandum which sought a decision regarding the potential land acquisition of the Springer Creek Mill Site (Site). The memorandum summarized due diligence and actions to date, and a recommendation to not proceed with the Site acquisition at this time. The recommendation is primarily based on Staff analysis of the significant potential known and unknown costs associated with acquisition and remediation of the Site.

27/20 Moved, Seconded and Resolved that:
The Board of Directors hereby approves that Staff does not proceed with the acquisition of the Springer Creek Mill Site at this time.

Community Initiatives and Affected Areas Programs Renewal

Financial Support for International Post-Secondary Students
The Board was provided a memorandum for discussion on whether the Trust would consider providing direct funding to international post-secondary students. The Trust has provided funding contributions to the financial support programs created at Selkirk College and College of the Rockies (Colleges) for students experiencing financial hardship as a result of COVID-19. Similar to criteria for the Trust's longstanding post-secondary bursary program, international students are ineligible for this funding. The Colleges have requested the Trust reconsider this position.

The Board was unwilling to reconsider this position as support for international students would be contrary to the Trust's established purpose, as legislated in the Columbia Basin Trust Act, to support residents of the Columbia Basin.

There were no resolutions arising.

Chair Carver spoke to her previous verbal Disclosure of Interest related to her role as Executive Director of Kootenay Career Development Society (KCDS) and disclosed that KCDS has recently received Trust funding in response to COVID-19 impacts. The Board confirmed that there is no actual or apparent conflict of interest as Chair Carver neither participated in nor influenced the decision-making process in any way.

Director Evans provided a verbal disclosure of a perceived or potential conflict of interest related to his ownership of a small farm business and interest in applying for Trust funding under the new Basin Food Producer Wage Subsidy program created to address COVID-19 impacts. The Board confirmed that Director Evans did not advocate or unduly influence the development of this program, and will not participate in nor influence the decision-making process in any way.
COVID-19 Organizational Response
The Board was provided a memorandum on Trust supports disbursed to date in response to COVID-19 impacts in the region and a community engagement Implementation Plan describing the process by which an interim management plan will be developed.

The Columbia Basin Management Plan (CBMP) and strategic priorities for 2016-2020 were to be renewed this year, for a ten-year period, via the now postponed Our Trust, Our Future 2020 public engagement process. Considering the significant shifts in Basin priorities that have arisen due to impacts of COVID-19, Staff proposed a process to develop a shorter-term plan to guide the Trust’s activities.

The Board expressed their appreciation and support for Staff’s effective shift to develop appropriate programming and supports in response to the sudden, drastic changes in Basin priorities brought on by the pandemic.

The Board endorsed the proposed interim plan to guide how the Trust will fulfill its mandate, and develop and prioritize related actions and strategies in the shorter term, until such time as a more fulsome public engagement process can resume to inform the renewal of the CBMP.

31/20 Moved, Seconded and Resolved that:
The Board of Directors hereby approves staff to pursue interim planning based on the engagement process and principles as presented in the material to this meeting.

Our Trust, Our Future 2020 Update
The Board was provided a memorandum that recommended a further postponement of the Our Trust, Our Future 2020 engagement process due to the significant impacts of the COVID-19 pandemic on the region. As discussed previously in this agenda, staff proposed the development of a shorter-term plan to guide Trust activities in the next 18 to 24 month period that included a revised approach to public engagement. Similarly, staff will bring forward a separate recommendation regarding the revised direction of Basin-wide symposium planning at a subsequent Board meeting.

There were no resolutions arising.

Board Meeting Format and Conduct
The Board was provided a memorandum that outlined current board practice for conducting Board meetings and solicited feedback on preferences for future meetings. • investments in power projects increased to $1 billion and included the addition of the Trust’s new ownership of 50% of the assets/liabilities of the Waneta Expansion Power Corporation

32/20 Moved, Seconded and Resolved that:
The Board of Directors hereby approve the consolidated financial statements for the year ended March 31, 2020 in substantially the form provided in the material to this meeting.
